SUMMARY

Software engineer focused on Front-end and building products based on a great mission. I am creative as well as analytical, and also compassionate.

EXPERIENCE

SENIOR FRONTEND DEVELOPER

2022 - Nov 2022

Accenture, San Francisco - Remote

- Building registration pages with third-party API validation on SFCC SFMC and Lightning resulting in significant growth for T-Mobile.
- Integration of Adobe Analytics into Shopify using Vue.js and Liquid for the launch of Kim Kardashian's new skincare e-commerce site.

SOFTWARE ENGINEER

2021 - 2022

Included Health, San Francisco - Remote

- Building UI and working on integrating payment API with Braintree and Back-end endpoints using React and GraphQL. Impacting the growth of paying users.
- Responsible for SFMC, integrating, documenting, and training developers.

WEB DEVELOPER

2017 - 2021

Doctor On Demand, San Francisco - Remote

- Built Single Page Applications and component systems with Angular.js and Vue.js.
- Responsible for the United Healthcare partner landing pages and email notifications which resulted in a 1900% growth.
- Responsible for all Enterprise landing pages and Email development with Salesforce using HTML, CSS, JS and Ampscript.

WEB DESIGNER

2016 - 2017

Self, Remote

- Built templates and web pages using HTML/CSS/JS - JQuery.

WEB DESIGNER

2014 - 2015

StoryboardArt.org, San Francisco, CA

- Strong HTML/CSS/JS - JQuery on Wordpress CMS platform.
- Email communications managed and designed email templates.
